

Used Machine Business

We are the specialist in sales and trade-in of used construction equipment.
By utilizing our business network covering all over Japan,
we can offer attractive conditions to you of high quality used machines and equipment from Japan.
We are waiting for your enquiry for Japanese used machines and equipment at any time.

Used Machine Export Chart

Inland Transportation

We make arrangement of inland transportation from our stock yard or from your designated yard to custom area at the port for exportation.

Custom Clearance

We make arrangements for smooth custom clearance at the port. We will inform you of the necessary documents for custom clearance in advance on each case.

Arrangement for Inspection

Prior to shipment, we can make repair, reconstruction and reconditioning of the machine to be exported. Please enquire us for the cost of such works.

Selection of Shipping Company & Booking of Shipping Space

Upon closing of business, we will make arrangements for selection of shipping company and booking of shipping space.

Repair, Reconstruction & Reconditioning

Prior to shipment, we can make repair, reconstruction and reconditioning of the machine to be exported. Please enquire us for the cost of such works.

Various Actions & Documentation for Export

We can make all the necessary documentation for export including proforma invoice. We can also make arrangements for marine insurance. In addition, we can arrange to obtain the original B/L from the shipping company.

Production and Sales
of
Various Equipment & Components

We can manufacture and sell equipment and parts for the construction of foundation works such as the auger screw, screw heads and casings based on our extensive experience and manufacturing know-how. We can also develop and manufacture parts for particular industrial applications.

Auger Motor

SMD240

D120KP

The auger motor is used by the type for various applications such as the precast pile, the steel pipe pile, the cast-in-place pile, the pre-boring, the sub-soil improvement, the obstacle removal, and the cut-off wall construction, etc. We are always ready to propose any type of auger motor fit for your need.

MAC150

Single Auger	D30K~D120HP
Double Auger	SMD80KP~SMD240HP
3 Axis Auger	MAC120~240

Auger Screw & Various Rods

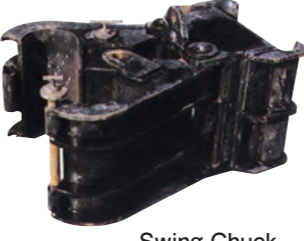

Auger Screw

Agitating Rod

Telescopic Rod
(Kelly Bar)

Swing Chuck

Based on our long experience, we developed machine tools specialized for screw machining & fabrication and achieved the minimum bending on the auger screw. Coupled with the considerate design, our screw auger can always demonstrate maximized digging capacity, which attracts our clients. Standard length of our screw is 5 meter.

Screw	120H	φ600~φ1200
	200S	φ600~φ1200
Telescopic Rod & Screw	80M·120H	7m~12.5m
	80M·120H	10m~18m
	80M·120H	14m~26m
Rod	120H	1m~5m
3 Axis Screw Auger & Head	80M·120H	φ550~φ650

Cement Milk Plant

In collaboration with some of domestic cement milk plant manufacturers, we can supply various types of plants such as truck-mounted residential land development units, and a full automatic plant for cement slurry mixing & pumping for large diameter deep mixing method and SMW wall.

Head

B-type Head

Particular Head

3-blade Expansion Head

Conical Head

Expansion Head

Conical Head

Crusher Head

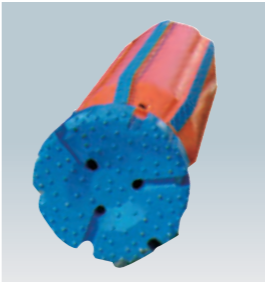

Soil Mixing Head

We design the head so that it bites the sub-soil efficiently with higher vertical digging capacity. We offer various types of heads for your needs, from general sub-soil to particular bedrock or cemented sub-soil.

Head (B type)	120H	φ400~φ1200
	200S	φ600~φ1200
Expansion Head (forward & reverse rotation)	120H	φ400~φ1200
Special Head	120H	
Swing Chuck	330 width	φ380~φ700
	600 width	φ380~φ1200
CDM Agitator Blade & Head	80M	φ1000~φ1200
CDM Swing Chuck		800P~1000P~1200P

Down the Hole Hammer

Down the Hole Hammer

Hammer Rod

Air Swivel

Line Oiler

Down the Hole Hammer	φ400~φ630
Hammer Rod 3m	φ420~φ620
Hammer Rod 5m	φ420~φ620
Line Oiler	Various sizes
Air Swivel	Dia 2-inch
Air Hose	5m~20m·Dia 2-inch hose

Various Machines

Pile Driver

Crawler Crane

Rough Terrain Cranes

We can propose you any other products besides those shown in the pictures hereinabove. We can also provide you with machine operators if you are in need.
